**OHIO BUYER ENTERS** THE JOPLIN DISTRICT.

Rumored That General Chemical Company Desires Ores for Acid Production.

Joplin, Mo., Jan. 24.—While some zinc was sold last week for this week's delivery at \$38 per ton, the highest price paid for ore delivered during the week was \$37 per ton. No change was made in the as-say basis for choicest bins of concentrates, \$24 being quoted, but some of the least desirable ore was cut \$1 per ton, eiling at \$31 per ton of 60 per cent zinc.

A buyer for a chemical company of Cleveland, C., was in the market last week and bought some ore for this week's delivery. It is understood that the com-pany's smelter is located in the West Virginia coal fields, and that the supply of ore is to be drawn largely from this district, owing to the high grade and large quantity of acid possible to derive from the ore of the Joplin district, in addition to obtaining the highest grade of metal-This will be the longest haul ever made from this district, the furthest smelters now obtaining ore from here being at Peru and Lasalle Ill.

now obtaining ore from here being at Peru and Lasaile Ili.

It is rumored that the new company is under the direction of the General Chemical Company, which controls the acid market of the United States as the largest consumer. This company supplies all the acids to the Standard Oil company for the refining of petroleum, and it is said to be controlled by the Standard Oil interests. The acid derived from the ore of this district (which is a sulphide of zinc) is sulphuric acid, a ton of which can be produced from a ton of ore without depreciating the metallic contents of the ore. The theoretical amount of acid to the ore is approximately 33 per cent. In many smelters this is entirely lost, because the demand is limited and the Western smelters are too far from a market for this by-product.

Lead sold last week at \$20.50 per ton, \$4 per ton higher than the general market of last week, and \$9.50 per ton higher than the same week last year.

Following are the sales of zinc and lead ores in pounds by the companies and individuals owning land or first leases in the various camps of the Joplin district for the week ending January 22, 194:

COTTON BOLL WEEVIL INVESTIGATION PLANS.

Sceretary of Agriculture Approve Scheme of Campaign Against the Destructive Pest.

Washington, Jan. 24.-The Secretary Agriculture has approved the plans of the cotton boll weevil investigation in the tion of \$250,000 has been made available. The plan approved, which was submitted by Doctor B. T. Galloway, the chief of the Bureau of Plant Industry, and Doctor Howard, the chief of the Department of Entomology, involved the following line

DEMONSTRATION WORK.

This will involve the organization of farmers in Texas and adjacent States in farmers in Texas and adjacent States in such a way as to secure the cultivation of tracts of cotton under specific instructions from the Department of Agriculture. Thus, a definite working plan will be given to each farmer, the farmer himself to furnish the seed and fertilizers, if such are required. These areas of cotton will serve as object lessons and will be planned to show the practicability of growing cotton despite the presence of the weevil. Similar work will be carried on in Louisiana, whence the weevil has not as yet advanced. It is planned to have \$,000 or 10,000 farmers engaged in this work.

PLANT BREEDING. PLANT BREEDING.

This work will have for its object the improvement of the varieties of cotton with a view of making them more prolific and earlier, so as to prevent the ravages of the weevil. The work will be conduct-ed on the experimental farms, which will be selected with due respect to climatic soil and other conditions. COTTON DISEASES.

The bill making the appropriation directs the Secretary to investigate the other insects and diseases, one serious malady, which will receive attention, is the so-called cotton root rot. This work will be in the direction of securing immune varieties by selecting and breeding and the testing of types that already have been selected. DIVERSIFICATION OF CROPS.

This is considered one of the most im-portant lives of work, and will have for its object demonstration work in the di-Its object demonstration work in the direction of growing crops other than cotton, and of forage crops with cotton, Diversification farms will be secured by cooperation with the farmers themselves.

Thereen of these farms will be located
in Texas, five in Louisiana, three in Mississippl and several in other cotton-growing States. The foregoing work will be
looked after by the Bureau of Plant Industry. The division of entomology will
continue its investigations on experiment
farms.

Thirteen farms for the growing of cotton will be located in Texas, and the investigations conducted will have for their object the determination of numrous questions relating to combating the boil weevil, which have not yet been definitely settled. The question of the effect of fertilizers on the early maturing of cotton will be considered. It is planned that the farms shall embrace 100 acres each.

PARASITES PARASITES.

weevil will be made, the object being to

introduce the parasites into Texas, with the hope of securing the destruction, through them, of the boll weevil. COTTON PRODUCTS. Attending the certification required by State laws will be another line of work conducted by the entomologist. Investigations into the life, history and Investigations into the life, history and habits of the weevil and for the general testing of persons and machines. This work will be carried on necessarily in the boil-weevil infested district.

Investigations of other diseases than the cotton boil weevil, including the destructife cotton boil rust, which is one of the most serious pests in a number of Southern cotton-growing States.

The organization of the work on cooperative demonstration farms has begun under the charge of Doctor S. A. Knapp, who is now in Texas.

THE WEATHER. Official Forecast Announced for To-Day and To-Morrow.

Washington, Jan. 24.-Forecast: Missouri-Monday, fair in north, snow and much colder, with cold wave, in south portion. Tuesday, fair, Indiana-Monday, fair in north, snow and colder in south portion. Tuesday, fair; fresh northwest winds.

Illinois-Monday, fair in north, snow and colder in extreme south portion. Tuesday, fair; northwest winds.

ROBERT H. MUDD QUITE ILL. Attack of Pneumonia Follows Alumni Field Meet.

After a critical illness, due to an at-tack of pneumonia, Robert H. Mudd of No. 284 Washington boulevard, brother of No. 254 Washington boulevard, brother of Doctor Harvey Mudd, is believed to be slightly better, and is now thought to be on the road to recovery.

Mr. Mudd was taken ill just before Christmas, and his illness quickly developed into pneumonia. For several days he has been in a dangerous condition. Last evening it was announced that he had based the danger point.

Robert Mudd was one of the best-known,

OUR PATTERN DEPARTMENT

All Patterns-10 Cents-All Patterns

Ladies' Coat, With Capes, No. 2140—One of the smart new gray and black mixed fabrics which are so popular this season is shown here combined with black velvet and tiny black velvet buttons.

The blouse portion is adjusted with shoulder and underarm seams. The velvet vest is wide at the neck and tapers slightly toward the waist. The blouse closes invisibly in the center front.

No. 9140— LADIES' COAT.

The back is plain across the shoulders and closely adjusted at the belt. The fronts are gathered at the lower edge and arranged on a marrow velvet belt, blousing a little in front.

Two shoulder capes start at the sides of the neck and terminate at the vest with small tabs that fasten on the vest with small velvet buttons. They are heavily machine stitched on the edge.

A skirt portion of circular shaping is attached to the belt and fits smoothly ever the hips. The fullness at the back is arranged in a lox plait each side of the center. This is faitly pressed and falls in plaited folds to the hem.

One-piece bishop sleeves fit the arm closely from shoulder to elbow. They are very wide at the lower edge, where the fullness is attached to a cuff of unique shaping.

Coats in this style may be made of broadcloth, zibeline, serge, cheviot or tweed and trimmed with contrasting material or made of one fabric with stitched cloth for trimming. They may be made of the same fabric as the skirt, or worn as separate outside garments.

To make the coat in the medium size will require 4 yards of material 4 inches wide, with \$\frac{8}{2}\$ yard of material for trimming. The pattern, No. 9140, is cut in sizes for a \$2, 34, 36, 38 and 40 inch bust measure.

No. 9157-LADIES SKIRT.

fare readily.

Lace mottles are applied at the lower edge of the skirt between the clusters of plaits and straps of insertion trim the plaits and straps of insertion trim the narrow gores.

The mode may be developed in taffeta, peau de sole, silk crepe, covert, cheviot, zibeline and velveteen, with lace, velvet or bands of embroidery for trimming.

To make the skirt in the medium size will require six yards of material 44 inches wide. The pattern, No. 9157, is cut in sizes for a 22, 24, 25, 28 and 30 inch walst

The Republic's Order Blank for

athletes of St. Louis a few years ago, and made a reputation as a football player, sprinter and wrestler at Smith Academy, Manual Training School and an Eastern college. He was probably the best academic athlete ever produced in this city and was always remarkable for his physical development.

He won many honors in achdratic-field days, and made a good collegiate record on the football sridition. Of late years, though engaged in business, he has retained his fondness for athletics, and it is thought that this might possibly have caused his present illness.

An alumni athletic meet was held at the Laughlin farm last Thanksgiving Day, and field and track contests were pulled off, as well as swimming races, athletes from the leading Eastern colleges competing in spite of the bitter cold.

Revival Closes at Marshall, Me.

REPUBLIC SPECIAL.

Marshall, Mo., Jan. 24.—A fifteen days. marsnail. Mo. said. All the little days revival at the Baptist Church, conducted by the Reverend B. D. Pratt of Kansas City and the pastor, the Reverend O. S. Russell. closed last night with about thirty additions to the church.

MRS. J. C. TUSSEY.

Clinton, Mo., Jan. M.—Mrs. J. C. Tussey
died here this niernoon after a lingering litness, Mr. Tussey was manager of the realdepartment of the Courtney Shoe Comman.
